The meeting lasted three hours. Mr. Jackson looked at the watch. It was a quarter to eight. "The last bus

started fifteen minutes ago", thought the man" so I'll have to stay in a hotel tonight." Mr. Jackson lived in the countryside. He always drove home after work. But there was something wrong with his car today, so he had to take a bus to work. This evening, he had an important meeting, so he missed the last bus.

At last the meeting was over. It began to snow when he went out of the warm office. He wanted some hot good and soup first. Most restaurants were full of people and he went into a small one. The waiter came up quickly and showed the menu to him. "Some hot soup, please," Mr. Jackson said to a waiter.

About twenty minutes later, the young man brought the soup to him. When Mr. Jackson was drinking he found something in it. "Come here, young man," he shouted," Look! There's a grey hair in my soup!" "It's very **odd**, sir," said the waiter. "It was usually a fly, I remember."

The following is an instruction of making a snowman:

- To be sure the snow isn't too wet.
- Shape a handful of snow into a ball. Continue adding more snow until it's too large to hold.
- Place the ball on the snow in front of you and pack the snow by pressing on it.
- Roll and pack the ball over and over until it is the size you want for the bottom of the snowman's body.
- The bottom should be the biggest ball, and the top should be the smallest.
- Put more snow between the layers to make them together.
- Give the snowman a face. Use rocks, buttons or anything dark and round for the eyes. A stick will make a good mouth, and a carrot is fine for a nose.
- Cover the top of his head with leaves for hair, or give him a hat to wear.

*Add arms, legs. Then place boots at the bottom for the legs. Also consider adding some other things such as a shirt, a scarf or a pair of sunglasses.

MIRROR, mirror on the wall, what will I look like in ten years? Will I look pretty if I eat junk food and don't exercise?"

To get the answers, you might need a special mirror. French scientists have *invented* (发明) one. In this mirror, you won't see what you look like today. You will see what you'll look like in the future.

"The mirror looks just like the one in your bathroom, but with two differences," says Martin Illsley, one of the scientists. First, it has a camera to take your pictures. You also need to tell the mirror what you eat and how you exercise. Then, with that information, special software(软件) in it will create a future **vision** of you in the mirror.

What can bad habits do to you in five or ten years? This mirror may just show you. If you don't want it to become real, give up your bad habits right now!

71. The special mirror _____.

A. looks special B. can talk with you C. is very expensive D. has software in it

72. If you want to see your future look, you need to tell the special mirror your _____.

A. height and weight B. diet and weight C. diet and physical exercises D. present look and diet

Why do plants grow in some places but they don’t grow in others?

The plants need some things to grow. One is warmth. If it is very cold, almost no plants could grow. Plants also need water. In very dry places only a few plants can live. That’s why dry deserts are not covered by trees or grass.

Plants also need a place to put down their roots and grow. It is difficult for the plants to grow on hard land. So on the hard land of the town or city the plants can only grow on the soil between the cracks(缝隙) of the stones.

Another thing plants must have is food. What will happen if we try to make the plants grow on the sandy beach(沙滩)? A few plants, such as beach grass, will grow in sand, but most plants won't. Even if the weather is warm enough and we water the plants every day, many of them will die because the sand on the beach has almost no food for plants.

76. According to the passage, plants need ____ things to grow well.

A. two B. three C. four D. five
